Call for Participants Researcher Links Workshop *Apply today*

Under the Researcher Links scheme offered within the Newton Fund, the British Council and the Thailand Research Fund together with Thai and UK universities under the programme will be hosting workshops in Thailand. We are now inviting Early Career Researchers from the UK and Thailand to apply to attend this workshop.

The workshop aims to encourage international research collaboration between ambitious young researchers from the UK and Thailand, and provides opportunities for early career researchers from the UK and Thailand to interact, learn from each other and explore opportunities for building long-lasting research collaborations.

The British Council and the Thailand Research Fund will cover the costs related to the participation to the workshop, including: travel (both international and local), accommodation and meals. Costs for the visa will be covered; however participants will be responsible for making all the necessary arrangements. Participants are encouraged to purchase an adequate travel and medical insurance.

Detail of the workshop is below:

Resilience of Groundwater Systems to Climate Change and Human Development

Thailand coordinator: Dr. Uma Seeboonruang, King Mongkut's Institute of Technology Ladkrabang

UK coordinator: Dr. Mohammad Shamsudduha, University College London

Dates and venue: 8-11 February 2016, Bangkok, Thailand

Topics: Topics of interest include, but are not limited to, the following:

- Climate-anthropogenic-groundwater interactions
- Groundwater and Adaptation
- Groundwater Monitoring
- Groundwater and Climate Change Modelling

Abstract submission deadline: 15 November 2015

Please request for detail of the workshop and application form from Dr. Uma Seeboonruang at uma.seeboonruang@live.kmitl.ac.th; kseuma@kmitl.ac.th or visit the website:
